I have reserved this subject for consideration & discussion on the spot before its submission to His Highness – The City Improvement Board are of opinion though somewhat reduced, the cost cannot that the type plans be further reduced and in this respect their opinions are somewhat divergent from the views of His Highness. This is what I have reserved for discussion – But there can be no doubt that the site selected is the best for Palace Servants and the acquisition of that site may therefore be sanctioned – The funds will of course be met from the money placed at the disposal of the Board as there is no question that the improvement to the offices by the removal of Hotels and is a part of the general improvements of this City –

When Govt is sanctioned the lands selected for the shifting of the Holeyar houses will be acquired and they will be commenced to be laid out & built upon in due course. The amount required for the purpose is 124172 as alleged in the Chief Engineer's office & maybe sanctioned.
